ABOUT ME

"Passionate about software engineering, I have a strong command of Java and Python, along with proficiency in SQL. Additionally, my expertise extends to using PowerBI and Excel for data analysis and visualization. Committed to mastering the art of coding and problem-solving, I aim to leverage my skills to drive innovation and excellence in the field."

SKILLS

- Python
- JDBC & Hibernate
- HTML & CSS

- MySql and Oracle SQL
- Core Java
- React

- Power BI
- Microservice & SpringBoot
- JavaScript

- Git & Git HUb
- Microsoft Office
-

WORK EXPERIENCE

SQUIRRELSEVA SOFTECH LLP

Software Engineer Intern • Aug-2022 - Oct-2023

- *Contributed to the development and maintenance of database systems using SQL.*
- *Executed complex SQL queries for data retrieval, manipulation, and analysis.*
- *Optimized database performance through query optimization and index management.*
- *Ensured data integrity and security by implementing appropriate data access controls.*
- *Participated in the design and implementation of database structures based on business requirements.*
- *Contributed to the development of dashboards using Power BI and created a dashboard that displays the sales performance of a company, including revenue, and sales, by region, and sales by product and other key matrics.*

PROJECTS

STUDENT DATA BASE MANAGEMENT SYSTEM

Feb-2022 - Apr-2022

1)Technology Stack:
- Core Java
- MySQL
- Spring Boot
- Advanced Java

2)CRUD Operations:
- Create, Read, Update, and Delete (CRUD) operations for student data management.

3)Permanent Data Storage:
- Data is stored permanently in the MySQL database.

4)API Development:
- Creation of custom APIs using Postman for managing student records.

Library Management System Using Relational DataBase Management

Oct-2022 - Nov-2022

1)Here We create a Table to Store the Book data.
2)Here We performed Multiple operations related to MySql Like
DDL, DML, TCL, DQL, DCL.and also used advanced concepts like Stored Procedure, Triggers,Index,Functions,

OWN PORTFOLIO

Dec-2022

My portfolio uses HTML AND CSS. Hosted in GitHub. Here Recruiters can access my profile and also, they can download my resume and Recruiters can navigate to my LinkedIn profile.
